cutting through complexity

# Certificate of Accomplishment

## Asset.Desk – Version 8.x

has been assessed by KPMG regarding the following features and functionalities:

- Software Catalog
- Technical Inventory
- Commercial Inventory
- Recognition and License Metric Engines
- License Assignment and Allocation
- Compliance Reports

Processes, methods and technologies of Asset.Desk – Version 8.x comply with and adapt the requirements set by the license terms and conditions of Microsoft, Adobe and Autodesk and relevant license metrics of other major software publishers.*

When implemented and used appropriately, Asset.Desk – Version 8.x enables organizations to support risk management of software license compliance.

KPMG AG Wirtschaftsprüfungsgesellschaft, Cologne, 25 June 2015
